

## **Executive Board – 12 June 2018**

### **Agenda Item 1(a) - Public Questions/Statements**

In accordance with Standing Order 10 the following public question has been submitted.

Further to the recent discovery that Wrexham County Borough Council does not own the entire site being proposed within the deposit Local Development Plan, officers have confirmed that an approach has been made by the Council to Dwr Cymru with a view to securing access rights over land in their ownership.

Wrexham Council had stated as part of the site assessment criteria, that sites being considered had to be entirely within Council ownership and therefore this suggests a failure in the selection process. As a result should alternative sites now be considered for a gypsy and traveller site and could it not be viewed that this approach by the Council to Dwr Cymru during consultation has pre-determined the outcome leaving this open to challenge?

### **Agenda Item 1(b) – Member Questions**

In accordance with Standing Order 10 the following Member question has been submitted.

#### **Councillor Bryan Apsley**

My question is to do with parking charges at the Country Parks and in particular Alan Waters Country Park and why the 9 to 5 proposal on parking charges has resulted in a 24 hour charge which obviously affects those who use the Park in what they thought was a none chargeable period. I would like to know that if there was an amendment to the 9 till 5 proposal (Executive 9th of January), when was it made and who made it.

On the same issue could I ask the lead member for people, youth services and anti-poverty why he didn't intervene as it will affect the youth footballers (220) families, and those who cannot afford extra expense in these austere times.
